Photo retouching \$5 per photo

## LOCATION

We can take your photos in a beautiful natural light studio in Siem Reap, or choose another location that suits you.

## THE PROCESS

1

We'll meet for a chat about your vision for your photos and start to plan out styling, location(s), date and time. (Or we can talk by phone or video, but in person is ideal.)

2

I'll create a moodboard to put your ideas and creative vision into visual form. I'm also happy to provide styling guidance if you wish.

3

During the photoshoot, we'll have a good time! I'll help you feel relaxed in front of the camera and provide posing guidance as needed so your photos reflect you as you want to be seen.

4

After the photoshoot, I'll edit your photos and upload them to a digital gallery for you. Normal turnaround times are 1 week or less for Express & Standard Packages and 2 weeks or less for the Deluxe Package.

5

You can easily download your photos from the gallery, and if you want any printed, you can order prints from there as well. I truly hope you'll love your photos and cherish them for a lifetime!
