LOCATION

We can take your photos in a beautiful natural light studio, or another location that suits you.

THE PROCESS

1 We'll meet for a chat, or connect by phone/video, about your vision for your photos and start to plan out styling, location(s), date and time.

2 I'll create a moodboard to put your ideas and creative vision into visual form. I'll also provide styling guidance if you wish.

3 During the photoshoot, we'll have a good time! I help you feel relaxed in front of the camera and provide posing guidance as needed.

4 After the photoshoot, I'll edit your photos and upload them to your digital gallery. Normal turnaround times are one week or less.

5 You can easily view and download your photos in the gallery. I truly hope you'll love them and will cherish them for a lifetime!
